The Johnson County District Attorney's Office has received numerous requests for information about the Overland Park Police Department's investigation of allegations regarding Tyreek Hill.

While we understand the public's concern, the investigation is still ongoing. It would be irresponsible to make definitive "official" statements before the investigation is complete. We are also mindful of the restrictions placed on us pursuant to Kansas Supreme Court Rules 3.6 and 3.8.

At this time, there will be no public comments.
